

Hello-

Hope you are all having a great winter. Wanted to let you know that our **Hand2hand** program is going strong. We currently have 68 students that we supply backpacks for each week. With all of the ups and downs this year with COVID, these back packs have been a great constant in the student's lives helping with their food needs. We could really use your help with food to fill the back packs. I am attaching a list of needed items below and would appreciate any donations you can give! I also want to thank everyone who has been giving all along. Without you, this program would not work!! Thank you! Kim Dunn
